Achyut Parajuli
Sathi AI
Newroad, Pokhara-2, Nepal

Subject: Application for Machine Learning Intern Position.

Dear Achyut Parajuli,

I am writing to express my keen interest in the Machine Learning Intern at Sathi AI , according to the recent advertisement. I am studying Bachelor of Science (Honors) in Computing at Informatics College Pokhara, which is affiliated with London Metropolitan University. I have a keen interest in software development, machine learning, and competitive programming. My strong background in data structures, algorithms, artificial intelligence basics, and cloud computing gives me the enthusiasm to be a valuable addition to your team.

I have used Java, Python, and machine learning libraries like TensorFlow and Scikit-Learn to a great extent in my project and academic work. I recently developed an NLP-based Sentiment Analysis Tool and deployed a machine learning model on a web platform with cloud scalability. Additionally, my experience in competitive programming (100+ problems solved on LeetCode and Codeforces) has also enhanced my problem-solving and algorithmic abilities.

I am especially attracted to this position because of Sathi AI's innovative approach to Web Development, Cloud, Machine Learning and Artificial Intelligence. I believe my technical skills, research experience, and enthusiasm for learning would make me a good fit for the goals of your team. If given the opportunity, I am eager to work to contribute positively with my analytical thinking and commitment to innovative solutions.

Please find my CV attached for your reference. Thank you for your time and consideration—I look forward to hearing from you.

Best regards,
Bishwo Tiwari
